## WHO WE ARE/Mission

A local, family-run operation that has been producing food since 2000.

## WHY WE FARM

I know how lucky I am to have a farm and I love working outside.

## OUR FARM FUTURE

- To be the primary citrus grower for Hawaii
- Offer Farm Tours and a Farm Stand

## WHY GOFARM HAWAII

- This is what I needed, it was the perfect crash course.
- It's a broad program: soil, fertilizing, pest control, integrated ag.
- All the people I've met have been so valuable to my farm business.

## WORD TO THE WISE

- There's such a high demand for locally grown food. Farmers have the opportunity to work together to help Hawaii's food security.
- Everyone can support the food system - even if you aren't a farmer.

## GREATEST OPPORTUNITY

My biggest problem/opportunity is that I don't have enough production to satisfy demand. People want locally grown food.
