

GoFarm Hawaii COVID-19 GUIDELINES

To ensure that we may continue programming during this time, we have developed the following guidelines based on CDC, Hawaii Department of Health, and UH System procedures. Please do your part to keep the GoFarm Hawaii environment safe.

Hand Washing Protocol (use soap and water for at least 20 seconds):

- when you arrive to site
- before and after eating
- after using the restroom
- after any sneezing/coughing
- before and after any face touching
- before and after using any shared infrastructure or equipment
- before leaving site

Tools, Equipment and Infrastructure Cleaning Protocol:

- Wash your hands before touching any shared tools, infrastructure and equipment.
- We keep disinfectant in field supply containers and in wash station.
- Sanitize handles (tools, BCS, tractor wheel) before and after using
- Aside from deep cleaning protocol at the wash station, everyone should be doing an extra vigilant job of soap washing and sanitizing all surfaces, hoses, handles before processing produce. Food safety already requires this – but let's be extra mindful.

Other Personal Behavior Protocols:

- When in group discussions and using shared spaces, leave distance (recommendation is 6 feet) between yourself and others.
- Masks are highly recommended when around others or using shared spaces.
- If you have done any off-island travel in the past 14 days, masks are required. In addition, be extra considerate of distancing from others.
- Cough or sneeze into your elbow.
- Greet others with your voices instead of hugs, handshakes, fist bumps, etc.
- Check with your Farm Coach regarding employee, volunteer, and guest policies for your site.

You are not permitted on a GoFarm Hawaii site if:

- You have tested positive for COVID-19. You may return when:
 - 10 days have passed since symptoms first appeared **and**
 - 24 hours with no fever without the use of fever-reducing medications **and**
 - COVID-19 symptoms have improved (for example, cough, shortness of breath) **and**
 - You can provide a negative test result.

- You are subject to government-issued or a healthcare provider's orders to quarantine. You may return when:
 - You have quarantined for at least 14 days **and**
 - You have not developed any symptoms **and**
 - If applicable, you have been released by your healthcare provider or are no longer under government-issued quarantine (i.e. for interisland travel).

- You have been identified through contact tracing as someone who needs to be tested for COVID-19. You may return when:
 - You have quarantined for at least 14 days **and**
 - You have shown no COVID-19 symptoms **and**
 - You can provide a negative test result.

- A member of your household has tested positive for COVID-19, or you have been notified that you have had close contact with a person with COVID-19. You may return when:
 - You have stayed home and monitored your health for 14 days after last contact with the person with COVID-19.

- If you develop symptoms during your quarantine/isolation period, you may return when:
 - You have consulted with your usual health care provider and informed them that you may have been exposed to a person with COVID-19 or have traveled in the last 14 days **and**
 - 10 days have passed since symptoms first appeared **and**
 - 24 hours with no fever without the use of fever-reducing medications **and**
 - COVID-19 symptoms have improved (for example, cough, shortness of breath) **and**
 - You can provide a negative test result or a clearance from your medical provider indicating that you are not at risk for transmitting COVID-19.

- You are sick. If you are sick, please [stay home](#), even if you only have mild symptoms of illness that could be COVID-19. You may return when:
 - Contact your medical provider and follow their advice including about when to return to class.

For students, COVID-19 related absences are considered excused. Coaches will ask students and AgIncubators to leave if they demonstrated any symptoms of illness. If you see that another student or AgIncubator is sick, please speak up so we can maintain the health of the entire community. If any of these situations occur, please communicate with your site coach so the program can take appropriate action, if needed.
