OUR MISSION

Our mission is to grow quality vegetables that are accessible and affordable. Our vision is a model of creative and sustainable agriculture. We are a strong believer in the necessity of food independence for our state. The solution is simple: we need to grow more food here right now.

WHAT HAS BEEN THE MOST REWARDING PART OF FARMING?

Running my own business, customers’ appreciation of the vegetables, and eating what I grow.

ANY LIFE LESSONS THAT FARMING HAS TAUGHT YOU?

The only way to keep going is to not quit.

WHY GOFARM HAWAII?

I wanted hands on experience. GoFarm was able to provide that with the tools and the land to grow commercially.

WHAT WAS A SURPRISING CHALLENGE FOR YOU?

Year-round growing.

WHAT ARE YOU GROWING?

Beans, greens, roots, okra, tomatillo, cilantro, roselle, and more.

WHERE CAN WE FIND YOU?

Weekly CSA (Community Supported Agriculture) available via www.bearclawfarm.com

And a handful of restaurants including (but not limited to):
Roots Kalihi
Goen Dining + Bar
Fete
Chef Mavro
Heiho House
